Every number is from their own page.

Don't just show the jar. Say what $30 buys.

? what they ask themselves → FIX the change I made

? "Is this too hot for me?"

FIX Their own line on the hero: intensely flavorful, not off-the-charts spicy.

? "What does $30 get me?"

FIX "2-PACK" became 2 jars, $15 each. Every pack shows its per-jar price.

? "Where do I buy?"

FIX Add to Cart on screen one, not 1,357px down.
