CONVERSION STRATEGY

Cold traffic doesn't bounce because your page is ugly. It's missing one of 5 parts.

SWIPE →

THE NUMBER

60%+

IS ROUGHLY WHAT WARMED COLD TRAFFIC CAN CONVERT AT

Straight to the PDP, the same ad converts near 1 to 2%. The 5 parts below are the conversion layer between your ad and your product page.

Ridwan - Shopify CRO & UX Designer

ELEMENT 1 OF 5

The Hook. The line that earns permission to keep reading.

Not your headline. A pattern interrupt that stops the scroll before you mention the product.

Ridwan - Shopify CRO & UX Designer

ELEMENT 2 OF 5

2

The Mirror. Say their exact frustration back before you offer anything.

If they don't feel seen in the first 3 lines, nothing after this converts.

ELEMENT 3 OF 5

3

The Discovery. Introduce the mechanism like it was found, not sold.

People trust what they think they figured out. Frame it as a discovery, not a pitch.

ELEMENT 4 OF 5

4

The Proof Layer. Real numbers and quotes, never adjectives.

Skeptical traffic doesn't believe claims. It believes evidence it can check.

Ridwan - Shopify CRO & UX Designer

ELEMENT 5 OF 5

5

The Soft Bridge. Hand them to the product without pitching.

One line, no hard sell. By now the product should feel like the obvious next step.
